

## **FCD Breakfast & Panel Discussion**

Is your company as strong as you believe?

*Strategies and Liquidity Alternatives in a Challenging Economic Environment*

On Thursday, January 12, 2012 FCD will begin our 2012 program year with a topic that should be on your mind — the financial health of your business. Even if you believe your company is on a firm financial footing, it is prudent to be able to identify warning signs so that corrective action can be taken.

An expert panel consisting of an investment banker, an experienced director who has worked through many challenging situations, a corporate workout advisor and an insolvency attorney will discuss how boards of directors and their management teams can spot and assess eroding value and develop strategic alternatives to counter negative trends. KPMG Corporate Finance Managing Director Rick Chance will moderate this timely program.

Among the issues that the panel will discuss are:

- Opportunities to improve operations and strengthen the balance sheet
- Restructuring process, strategies and liquidity alternatives
- Duties and responsibilities and avoiding liability
- Events leading to the zone of insolvency
- Best practices

Please scroll down to read about our panel and to register today!
